

[www.fiabcischolarship.org](http://www.fiabcischolarship.org)

FIABCI, the umbrella organization for the real estate industry around the globe, is the French acronym for the International Real Estate Federation, a worldwide federation of professional associations founded in Paris in 1949. FIABCI enables real estate professionals to share their knowledge and experience with each other and with the international community in order to provide society with the optimal solution to its property needs. FIABCI is the only international real estate organization with Special Consultative Status Category II with the Economic and Social Council of the United Nations.

The **FIABCI Scholarship Foundation** was established as a nonprofit 501(c)3 corporation to provide aid and travel assistance to students who demonstrate an interest in the field of international real estate or are enrolled in real estate related courses at a qualified university. Your philanthropic gift will nurture these future real estate professionals. Contributors may allocate their tax-deductible donations to any of the following designated funds:

Founder - New scholarships may be established through a founding contribution or five year pledge totalling \$25,000. Please keep the Foundation in mind when considering your estate planning alternatives.

The **FIABCI Annual Celebration** includes the presentation of the Foundation's "Philanthropist Award" which is given to the outstanding donor for the prior year.

Pier W. Zijlstra,  
FIABCI Scholarship  
Foundation President,  
kicks off the global  
fund raising effort  
in Brussels.

“I have just commenced my final year of study towards and MA(Hons) in Landscape Architecture in Edinburgh. I applied for a scholarship and was lucky enough to be awarded one. This award has provided me with the impetus to learn more about a career that previously I had known nothing about, and it has inspired me to make the first steps towards pursuing something that is exciting and dynamic. I am looking forward to building a career in Real Estate. Thank you, FIABCI! You have made me set new goals to achieve for myself.” David Gooch

you with questions on  
Foundation contributions.

Kristin Gosselin

“My foremost academic interest has been focused on the intersection between real estate and international affairs in emerging markets and transition economies. My educational goal is to merge the two seemingly disparate disciplines of international studies and real estate in an academic environment where little scholarship on the subject currently exists.”
